Partnering Local Government in Rossendale

We all want to improve the quality of life for our communities.

Evidence shows that by increasing participation in sport and physical activity we can reduce health inequalities, spur economic growth, and energise community engagement.

17% of deaths are caused by inactivity. International comparison shows physical inactivity is a greater cause of death nationally than almost every other economically comparable country.

£7.4bn is the estimated figure that physical inactivity costs the national economy in healthcare, premature deaths and sickness absence.

£1,760 - £6,900 can be saved in healthcare costs per person by taking part in sport.

£20.3bn was contributed to the English economy in 2010 through sport and sport-related activity.

29% increase in numeracy levels can be achieved by underachieving young people who take part in sport.

15.8% is the reduction in crime and anti-social behaviour in areas where at-risk youth have participated in sport for development programmes.

19.8% of the population have a long term health problem or disability.

77.8 is the life expectancy of males, compared to the national average of 79.4.

81.8 is the life expectancy for females, compared to the national average of 83.1.

40 deaths are estimated to be prevented per year if 75% of the population aged 40 – 79 were engaged in the recommended levels of physical activity.

26.0% of adults (16+) are inactive in your community, compared to the national average of 27.7%.

28.4% is the estimated health costs of inactivity in your community.

Sport England’s offer

Our team of local experts, tools, and investment are available to help you:

- Gain greater insight about people and sport and physical activity in your area.
- Demonstrate what sport and physical activity can do for your council’s priorities.
- Maximise opportunities for sport and physical activity to work with commissioners of health, social care, young peoples services, and community safety.
- Develop a strategic approach for sports facilities and opportunities based on need and evidence.
- Achieve efficiencies and improve the effectiveness of your service.
- Capitalise on opportunities to work with national governing bodies.
- Provide opportunities for your young people through Sportivate, School Games; and working with HE and FE sectors.

We also invest in county sport partnerships (CSP) to work across the local sporting landscape, supporting partners, including local authorities, to increase participation.
